

Let's work on this together

**faison  
center**

*Pioneering Possibility*

for individuals with autism and their families since 1999

**Early Education Center**

## Faison's Early Education Center provides individualized instruction to children ages 1-6 in the following areas:

- Increase Communication
- Reduction of problem behavior
- Social skills in small and whole group settings, often with neurotypical peers
- Toilet training
- Daily living skills (feeding, dressing, toileting)
- Parent support and training session
- Collaboration with related service providers available upon request
- Speech services are available upon request
